INTRO

Today, in the Digital Transformation Era low-code tools are taking the place of traditional coding solutions and open software tools are boosting Artificial Intelligence in our digital existence, WEDEVA company is established.

From the 'I' to 'WE', from the legacy systems to the new ones of the connected world, from the restricted licensed environments to the Open Technologies,

**WE will DEVelop Automation
for any business needs.**

“ BUSINESS OPPORTUNITIES ARE LIKE BUSES.
THERE'S ALWAYS ANOTHER ONE COMING. ”

Richard Branson

SHORT BIO

**Antonio
Koronios**

Founder

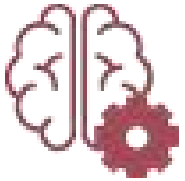

I am an Analyst Designer, Consultant, and Project Manager with more than 30-year background in the informatics industry. I've entered the industry in the early '90s as Technical Software Operator, mastered Turbo Pascal programming, and later shifted as an Information System Consultor. I've successfully completed a wide range of Informatic projects including developing tailor-made CRMs, networking of the Greek European Presidency 2003, developing the Electronic Voting System

for the Hellenic Parliament and many others.

Accomplished College courses as Computer Programmer, I am a Self-motivated, self-educated, System Analyst, Ecologist, and Activist for Human Rights and Democracy, attended numerous of industry related seminars, certified, and currently studying at Hellenic Open University (H.O.U.) in Computer Science.

Founder of iBS and WEDEVA.

OUR SERVICES

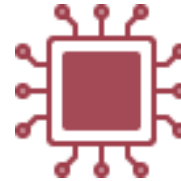

AUTOMATION

Business process automation is the use of software to automate repeatable, multistep business transactions. In contrast to other types of automation.

WEB SCRAPING

if you want to get large amounts of data from a website to train a Machine Learning algorithm then copying and pasting will not work. You will need to use Web Scraping!

LINUX 365

As you build your next machine or purchase your next workstation, you might start to wonder which operating system is best for you.

R & D

Before data can be used to tell a story, it must be run through a process that makes it usable in the story. Identifying, cleaning, and modeling data to discover meaningful and useful information.

TIMELINE

JUL
2023

Synergize **scalable Big Data solutions**

DEC
2023

Disseminate **standardized metrics**

MAR
2024

Coordinate **web scraping e-business applications**

JUL
2024

Foster holistically **methodologies**

DEC
2024

Deploy **strategic networks with compelling e-business needs**
